Sir,

In acknowledging the receipt here yesterday of your official memorandum No $\frac{1303-10}{L.761-03}$ dated 25th Instant, calling for a report, within the End of the current month, upon the action taken regarding the Conservancy of villages, Subject no 102 of the Dasara Representative Assembly Proceedings of 1901, I have the honor to state that no reference is forthcoming in Camp to show what action was taken with reference to the Government orders on the subject. It may be stated, however, that the Conservancy of the

more important and populous villages has not yet been undertaken on an extended scale for want of funds. The assessment on vacant sites in villages is still credited to the head "Land Revenue: Miscellaneous"; and with the limited funds at the disposal of the Local Fund Board, the conservancy of only a few villages selected by the Board is being properly attended to. The marginally noted provisions were made for this purpose in the Budgets for 1901-02 and 1902-03.

Sir,

Adverting to Government Official Memorandum No. 1303-10 dt. 6-1-03 dated 25th September 1903, I have the honor to state that at present an expenditure of Rs 948/- is incurred annually under the head "Conservancy and Sanitary charges" in the District Fund Budget, on account of sweepers employed in the villages as shown in the statement hereto appended.

In some of them two sweepers and in others only one are entertained.

I have

having regard to the importance of the villages whose population is more than 500.

The proposal to employ a sweeper for every village with a population of more than 500 is no doubt a good suggestion; but it is not possible to meet the cost of this arrangement exclusively from the realisations of assessment imposed on vacant sites within the frontan. The District Funds which are already in a crippled state cannot afford to bear further strain, and sweepers can only be employed in such villages where it is necessary if contributions from the General Mohatarfa could be made to supplement the realisations of assessment on vacant sites.
